About Us

With utmost passion to please our buyers through a nonpareil gamut of mats, coffee and spices, Caregreen Incorporation, has ventured into the business as a trader and supplier. We take immense pride in sourcing and shipping across the nation a highly exotic range of coffee, spices and mats that meets existing taste of modern customers.

It has been a few years to our existence but still we have developed strong bonds with all customers in the market. Our business unit is commenced by highly noted industry veterans, which helps in carrying out business responsibilities in an experienced manner.

The quality of our matchless items brings a wide smile on the faces of users because they are processed with utmost sincerity by vendors. As a preferable trader, we maintain a huge stock of our Natural Coffee Beans, Cardamom, Star Anise, PVC Printed Coir Mat and more. We lay massive emphasis on shipping simply the extraordinary products all over the markets to continue gladdening clients for years after years.

A Renowned Organization

Formed years ago in 2017, our company is renowned for meeting needs of respected customers. Headquartered in the God own land famously known as Kerala, we are effortlessly doing our business keeping customers interests into focus. We might appear new to some clients but our deep commitment and association in business portray us as a highly experienced source for present and upcoming needs of mats, coffee and spices. We maintain our sourced farm produce and other products in an excellent manner to ensure superior quality. When it comes to supporting heavy demands, we never step-back and thus assures about offering our true assistance at all times.

Reasons To Believe In Us

- ✿ We maintain a large-scale stock of sourced products such as PVC Printed Coir Mat, Star Anise and more to meet demands of customers.
- ✿ Our company surprises customers by completing all kinds of orders before the final deadline.
- ✿ We ensure the safest packaging of products to annihilate damage during the transportation process.
